Dear Baystate Families and Students,

Surfing the web or surfing the sea, neither are as great as tenth grade can be! You are about to enter a world of optimism, hard work, friendship, fun, support, homework, and much, much more. We plan on making this the best year ever. If you do the same, we will be traveling on the road to success!

We will do a great deal of communicating via e-mail and phone calls this year. If you did not leave your best form of contact on file please send your teacher an email, giving the best address(es) to contact you. We will be sending newsletters and individual emails/calls as needed.

The fun shall truly begin on the first day of school! A positive attitude is the most important thing you can bring to the tenth grade, but some additional materials will be helpful to you as well. The following 10th Grade Supply List can be located below.

I'm sure you share in our excitement to set foot on the journey of a new school year.
