BACPS 6th Grade Welcome Letter

Dear 6th Grade Parents and Families,

The 6th Grade team is proud to welcome you to the Baystate Academy family! We are very excited about this school year.

6th grade is a year of transition for both students and parents. We know that you will have many questions, and we hope to keep communication open all year. We hope to communicate through your child's agenda, email, and phone calls. PowerSchool is also a very important way to stay on top of your child's grades. PowerSchool is an important tool to have as a parent, so if your log-in information does not work, please contact the office for additional help.

We plan to fill your child's day with learning, and will send home homework with them to continue the learning process. Every student will have an agenda that is signed by all teachers, so you will always be updated on what needs to be done every night at home.

Thank you for reading this letter. Attached to this letter you will find the Scope and Sequence for each of the courses your child will be taking this year. Again, we are looking forward to meeting and speaking with you this upcoming school year.

Your 6th Grade Education Team
